# Sancerre, Francis Blanchet Pouilly Fumé ‘Cuvee Silice’ , Loire Valley, FR ‘22

Since the early 1990s, winemaker Francis Blanchet has crafted a special selection of pure Sauvignon Blanc from fruit selected from flint-rich vineyards for us. This unique terroir announces itself explosively: knock two vineyard stones together and you can't help but be bowled over by the aroma of firecracker smoke. Indeed, **fumé** means “**smoked**” in French, which gives you more than a hint of why Sauvignon Blanc from producers like Blanchet in this charmed appellation across the river from Sancerre is so energetic and mineral-driven.

This gorgeously pure and bright Sauvignon Blanc shows a brilliant bouquet of lemon zest, nectarine, jasmine tea, and quince. The high percentage of silex in the terroir shows through with a distinct flinty note that adds complexity. The palate has plenty of verve, with notes of ginger, anjou pear, and wet stone. A clear vein of minerality keeps everything in balance.

# Pinot Noir, Folk Machine, Central Coast, CA '23

Having made a name for himself crafting critically acclaimed Cabernets and Zinfandels for his label Hobo Wine Company, Kenny Likitprakong created Folk Machine Wines as a home for his Pinot Noirs and a smattering of wines from some of California's more esoteric grapes. A former surf bum, Kenny spent his twenties drinking cheap Bordeaux and sleeping on beaches. He doesn't own vineyards, instead he sources grapes from 40 different vineyards along the Northern California coast, from Santa Cruz to Mendocino.

The nose is delicate and light with aromas of tea, bing cherry, white raspberry, sage and a just there earth note. On the light palate there is a ethereal sense of light red berry and cherry nicely balanced by spice, earth, and a black tea note to finish. This is for those that want a quite light bodied California Pinot with some red fruit to balance out the non-fruit slash earth notes
